Global warming is primarily a problem of too much carbon dioxide in the atmosphere, (22) _____ acts as a blanket, trapping heat and the planet. Globally, the average surface temperature has increases more than one degree Fahrenheit since the late 1800s. Most of that increase has occurred over the past three decades.

We are overloading our atmosphere with carbon dioxide, which traps heat and steadily drives up the planet's temperature. Carbon dioxide comes from the fossil fuels we burn for energy, such as coal, natural gas, and oil, and the loss of forests due to (23) _____, especially in the tropics.

Within the scientific community, there is no debate. Most scientists agree that global (24) _____ is happening and that human activity is the primary cause.

Global warming is already having significant and costly effects- and these consequences will only intensify as the planet's temperature continues to rise. Global warming is accelerating the rate of sea level rise and dramatically increasing coastal flooding risk. Climate change has significant effects for our health, including increased air pollution and a longer and (25) _____ intense allergy season.

Question 22. A. that	B. which	C. who	D. when
Question 23. A. deforestation	B. culture	C. relation	D. afforestation
Question 24. A. wrapping	B. proving	C. offering	D. warming
Question 25. A. more	B. few	C. less	D. little

PHÀN TỰ LUÂN(5 points)

Complete the following sentences using the correct form of given words. (0,5 point)

Question 1:	Farming contributes more than 30 percent of the total greenhouse	gas (EMIT)
Question 2:	Most of these students are interested in pursuing	studies for bachelor's degrees.
(GRADUA	ATE)	

Give the correct forms of the verbs in brackets (0,5 points)

 Question 3: Bill is still a bad driver although he (drive)
 _______ cars for six years

 Question 4: The most magnificent feature of Taj Mahal (notice)
 _______ is the central dome.

Reading: Read the passage and answer the questions: (1.5 points) EDUCATION IN THE FUTURE

Education is another area of social life in which information technology is changing the way we communicate. Today's college students may not simply sit in a lecture or a library to learn about their field. Through their computers and the wonders of virtual reality they can participate in lifelike simulated experiences. Consider the following scenario of the future of education made possible through developments in information technology.

For children over the age of 10, daily attendance at schools is not compulsory. Some of the older children attend school only once or twice weekly to get tutorial support or instruction from a teacher. For the most part, pupils are encouraged to work online from home. Students must complete a minimum number of study hours per year; however, they may make up these hours by studying at home at times that suit their family schedule. They can log on early or late in the day and even join live classes in other countries. In order to ensure that each student is learning adequately, computer software will automatically monitor the number of hours a week each student studies on-line as well as that students' learning materials and assessment activities. Reports will be available for parents and teachers. The software can then identify the best learning activities and condition for each individual student and generate similar activities. It can also areas of weak achievement and produce special programs adjusted to the students' needs.

uestion 6. How often are children who are older than 10 required to go to school?
>
The students study on-line ?
>
uestion 8. Can the software identify the best activities for the students?
>
The second seco
>
ewrite the following sentences, using suggestions. (1.5 points)
These are the ancient houses which were built a long time ago. (Using participle)
